

TAKE THESE STEPS NOW TO STREAMLINE PATIENT ACCESS TO NEXLIZET AND NEXLETOL

Esperion has partnered with ASPN to support HCPs and patients while insurers update their prior authorization (PA) criteria to align with our expanded indications. ASPN can provide NEXLIZET or NEXLETOL to eligible patients if the PA for the product is denied or delayed.

1

SUBMIT YOUR PATIENT'S Rx TO ASPN PHARMACIES (NPI: 1538590690) VIA EMR

If preferred, submit via Fax at 1-866-312-4030

2

UPON RX SUBMISSION TO ASPN:

Communicate a unique patient key code via eFax or through the ASPN HCP portal for the office to proceed with completion of the PA

Note: Office must complete clinical documentation of the PA

Upon completion of the PA, ASPN will facilitate communication with payer during the approval process

ASPN will communicate directly with the patient and facilitate fulfillment of prescription

Note: Ask your patients to save ASPN's phone number to easily identify communications from ASPN for a smooth process.

FAQ'S

1. How can I let my patient know what to expect?

Let your patient know that their prescription will be handled by ASPN Pharmacies, and to expect a text or phone call from ASPN Pharmacies.

2. Does the patient need to submit a co-pay card with the prescription?

ASPN Pharmacies will enroll eligible patients automatically in Esperion's co-pay savings program.

3. What is the typical delivery time?

Your patient will receive their prescription at their home within 2 days of the prescription being filled. Alternatively, your patients may request their prescription be transferred to their pharmacy of choice.

4. If a claim is taking longer than expected, is the patient notified?

Yes, ASPN Pharmacies will notify the patient with the status updates pertaining to the prescription.

5. How do I gain access to the optional ASPN HCP Portal?

Scan to register for the optional ASPN Prescriber Portal to see real time Rx status, complete Rx clarifications, and submit prior authorizations.

6. What is the other option to complete a PA than using the portal?

ASPN sends the PA via fax. The office can complete the PA and return the fax or use the unique patient key code and complete the PA at ASPN [pharmacies.com](https://www.aspnpharmacies.com)

7. What if my patient's insurance provider doesn't initially cover Nexlizet or Nexletol?

If there is a delay in coverage, ASPN will notify you and send the patient a free 30-day supply for both commercial and government insured patients as part of our QuickStart program.

If your patient's insurance denies coverage:

- For eligible commercial patients, ASPN will continue to provide access to Nexlizet and Nexletol for \$25 a month until their insurance updates their PA criteria to align with expanded labels
- For Medicare, ASPN will support you through the appeal process for the benefit of the patient
